PRODUCT

500-500-500-500-4/0
NoLUBE® SIMpull/THHN® CU

CUSTOMER

Cache Valley Electric

LOCATION

Salt Lake City, UT

Cache Valley Electric (CVE) recently chose to work with Southwire on a special project – the construction of their new corporate headquarters building. The job consisted of 3 pulls using 3 different methods. As you can see below, Southwire’s SIMpull Solutions® Innovations help you work Smarter not Harder!

SAVING TIME, ACHIEVING DEADLINES, & REDUCING COSTS
