

LOCK THE STOCK

INVENTORY RESERVE PROGRAM

To enhance our promise of best-in-class service, Southwire SPEED[™] Services is pleased to announce the introduction of a guaranteed inventory program that will allow customers to LOCK THE STOCK. All stock quotes will be eligible for the guaranteed inventory program upon request at the time of quotation, allowing Southwire to reserve the stock for a 24-hour period.

WHY?

We know our customers often need to quickly secure inventory for “can’t miss” deadlines and critical repairs, and we want to provide that level of assurance and service for them.

HOW?

When requesting a quote, inform your Southwire SPEED[™] Services representative that you want to utilize the Inventory Reserve Program.

WHO?

This program is available to all Southwire customers.

WHEN?

You will have **24-hours** after locking the stock to place the order. If you do not place the order, the lock will be canceled, and the inventory will be returned to stock.

*Reserving without a purchase will be subject to penalties up to and including the inability to participate in the program.

**Southwire will make every effort to ensure that inventory is available, however if systematic inventory does not match physical inventory, then we will inform you as soon as the issue is found and refund the order accordingly.
